Modern Slavery Statement

Version	1.0 interim
Revision prepared	9 November 2026
Status	Approved
Policy owner	A Bowler Managing Director
Approved by	A Bowler Managing Director
Approval date	9 November 2026
Issue date	9 November 2026
Review	9 November 2027 or sooner if required
Reporting period	March 2026 to March 2027

Reporting period and status

March 2026 to March 2027. This reporting period is in progress. This interim statement was approved on 9 November 2026. The full-year statement will be completed with the steps taken during the period and reviewed for approval after the relevant evidence is confirmed.

Our business and commitments

Uniti Scaffolding Ltd provides scaffolding services. Its Modern Slavery and Ethical Labour Policy prohibits forced labour, trafficking, debt bondage, exploitation and child labour and sets expectations for voluntary work, lawful pay, safe conditions and respectful treatment.

Responsibility and policy controls

The policy assigns overall accountability to the Managing Director, supplier oversight to the Contracts Manager or Procurement Lead and workforce welfare and reporting duties to Supervisors. It calls for identity and right-to-work checks, no recruitment fees charged to workers, supplier assessment and review and action on unethical practices.

Risk and reporting

Relevant areas for review include recruitment, subcontracted labour and purchases of materials and services. Workers should report concerns to management or a Supervisor. The policy provides for confidential reporting without retaliation and investigation of concerns. Immediate danger should be reported to the emergency services.

Actions during the reporting period

To be completed from verified records: recruitment and right-to-work checks; supplier assessment and review; briefings, inductions or training delivered; concerns raised, investigations and corrective action. No completed audit, training total or absence of incidents is asserted before those records are checked.

Effectiveness and next steps

The completed annual statement should explain what the evidence shows, any gaps identified and the improvements agreed. Existing policy requirements should be distinguished from actions actually completed during March 2026 to March 2027.

Approval

Reporting period: March 2026 to March 2027
Interim statement approved by: A Bowler, Managing Director
Approval recorded: 9 November 2026
Full-year review: after the reporting period ends in March 2027

Related policy

Modern Slavery and Ethical Labour Policy 32 remains the existing policy reference. This interim statement does not replace it.
